

WORKCENTER™

A Mobile-Optimized Extension of MaintenanceEssentials Pro™

With the **WorkCenter** mobile application, get ready to experience maintenance and operations management made simple. Smartly designed to enhance workflow and accountability, WorkCenter is your all-in-one project tracking, updating, and recording application. Developed to complement MaintenanceEssentials Pro, this app is another tool in our existing suite of solutions for technicians and supervisors alike. Tap into this mobile application to remotely collaborate with your team and manage work on the go!

BENEFITS

- ▶ Make updates and complete work easily, on the go and in the field - reducing windshield time
- ▶ Paperless workflow increases efficiency and eliminates waste
- ▶ Remote accessibility makes updates to work orders instantly available to technicians in the field
- ▶ No more duplicated effort adding handwritten notes to the desktop app at the end of the day
- ▶ Intuitive design means accurate reporting through good data entry
- ▶ Real-time project tracking allows you to see when a work order is completed, as it happens
- ▶ Accurate and immediate data entry means nothing falls through the cracks

REQUIREMENTS

- ▶ Apple™ device running iOS9 or above
- ▶ Android™ device running 4.2 or above
- ▶ Valid email credentials for SchoolDude applications
- ▶ SchoolDude account must be activated for mobile: schooldude.com/getworkcenter

FEATURES

All users will have the ability to:

- ▶ View a simplified, uncluttered work order list of just their open work orders
- ▶ Quickly complete a work order by swiping
- ▶ Use the app to keep track of time-on-task, again just by swiping
- ▶ Add new work orders
- ▶ Locate any work order by ID
- ▶ View and edit work order details

Additionally if the user is a supervisor, they will be able to:

- ▶ Change work order assignment
- ▶ View a simplified list of work orders that they need to assign out
- ▶ View a simplified list of their team's work orders
