

MAINTENANCEDIRECT™ SET-UP SIMPLIFIED

SchoolDude's independent school clients have a ready-to-use work order management system within 1 hour

How many steps does it take to set up your work order management system?

- ▶ **WHO:** Users including administrators, tradesmen and technicians
- ▶ **WHAT:** Crafts or trades
- ▶ **WHERE:** Locations, including sites or buildings
- ▶ **HOW:** Work order routing based on craft or location
- ▶ **START USING!**

How long does each step take?

- ▶ 1 minute per user
- ▶ 30 seconds per craft
*SchoolDude recommends no more than 15 crafts to simplify your process
- ▶ 30 seconds per location
- ▶ 15 seconds per route

SchoolDude has the largest database of education operations in the world. With more than **6,000** educational institutions using SchoolDude operations solutions, we can provide average set-up and implementation times based on our clients' actual data. Let's look at various examples from our database:

	< 1,500-student independent K-12 school
Average # of users (in your department)	6*1 minute = 6 minutes
Average # of crafts	15*30 seconds = 8 minutes
Average # of locations	18*30 seconds = 9 minutes
Average # of routes	9*20 seconds = 3 minutes
Total Average Set-up Time	26 minutes

What else should you consider to maximize your return?

- ▶ **Let faculty and other requesters add themselves as users**, requiring no additional work for you or your team through the use of the MySchoolBuilding request portal. Clients report completing requests 14% faster with MySchoolBuilding.
- ▶ **Track costs to improve cost reporting** with wages and labor hours. Many clients use their cost data to justify resources and additional staff hires.
- ▶ **Specify staff roles** within the system at a more granular level for further role division.
